

SCP SCIENCE introduces an ergonomic bench-top fume hood designed for conventional autosamplers, hot plates, and water baths. Ambient air is drawn through the dual HEPA filter adaptors offering clean and even air circulation. Increased fume hood height and the addition of universal serial ports (4) offer flexibility to house laboratory instruments.

- ◆ Integrated Lexan door for easy access of samples - Provides durable and see-through construction
- ◆ Filtered air with HEPA filter adaptors for cleaner air flow - offers consistent evaporation results
- ◆ Variable speed blower option to maximize air circulation / removal - eliminates excessive sample cool down

Ordering Information & Specifications

DigiPREP Fume Hood System

Catalog Number	010-500-059
Construction	Corian bottom, Lexan walls
Size (in)	27W x 28D x 21H
Weight (lb)	60

Options & Accessories

DESCRIPTION	QUANTITY	CATALOGUE NUMBER
Variable speed blower unit (115V/230V)	1	010-500-033
• 3 foot exhaust hose with 90 degree elbow*	1	
• 6 foot exhaust hose**	1
